The simple and complete management of your gas detection fleet

## THE GAZDETECT INTRANET

A simple and innovative management concept for your gas detection fleet

**A free service, available for everyone !**

[www.gazdetect.net](http://www.gazdetect.net) - The GazDetect intranet network – is a simple and innovative management concept for following up your gas detection fleet. It's a free service available on Internet !

Once logged in with your password, you can access your **personal account**

« My account »: **configure your account** (specify the email addresses for the automatic dunning to calibrate your detectors)

**Manage the alarms** and returns of your devices or on-site intervention inquiries...

- 1 Instant view of the validity state of the calibration certificate
- 2 Device type (standard name)
- 3 Serial number of the device or of the controller
- 4 Short description of the device (number and type of gas)
- 5 Personalised field (name of the worker wearing the portable detector or location of the controller...)
- 6 Last calibration date (in ascending or descending order)
- 7 Next calibration date (in ascending or descending order)
- 8 Calibration certificate

1	2	3	4	5	6	7	8
Type	N° Série	Désignation	Affectation	Dernier étalonnage	Prochain étalonnage	Certificat	
● BM25FC	12345AB-006	CO-CO2-EXPLO-O2	CONTROLE (Didier)	18/01/11	18/01/12		
● GPROFC	12345AB-010	H2	RECHERCHE (Sébastien)	18/01/11	18/01/12		
● C1100FC	12345AB-011	CO2 IR	LABO (Pascal)	18/01/11	18/01/12		
● MX4FC	1234567-001	EXPLO-O2-CO-H2S	PRODUCTION (Richard)	01/09/10	02/03/11		
● MX6FC	12345AB-005	COV	ATELIER (Francis)	26/07/10	24/01/11		
● M40FC	12345AB-008	EXPLO	ENTREPOT (Olivier)	06/06/10	05/12/10		

« My fleet »: **manage your gas detection fleet** (assign, sort, classify the devices and instant control of the gas detectors that need to be calibrated)

« My documents »: **view / print your calibration certificates** (your ongoing calibration certificates but the previous too, your specific prices, your maintenance contracts or your on-site intervention inquiries)...

The simple management of your gas detection fleet is available from anywhere, from any computer or via your smartphone...
