Portable spotlight ATEX zone 0

## Technical specifications

### ATEX Zone 0 LED portable spotlight:

- Lighting modes: High, low or flashing
- Lighting: Multi-position horizontal or vertical
- Power: From 401 to 600 lumens
- Beam intensity: 6914 to 18480 cd
- Range: Up to 392 metres
- Battery life: 4 hours (high mode) to 11 hours (low mode)
- Battery: 4 NiMH rechargeable batteries
- Charging time: 5.5 hours
- Battery level indicator: RGB LED

### Materials:

- Body: ABS
- Lens: Impact resistant polycarbonate
- Coating: Antistatic PC/PBT
- Protection rating: IPX4
- Ergonomic handle with gloved hand
- Carrying strap

### Dimensions and weight:

- Length: 22.2 cm - Height 12 cm
- Head width: 9,5 cm
- Body width: 10.2 cm
- Weight with batteries: 1 650 grams
- Colour: Yellow

### Certifications:

- Zone 0 ATEX (Category 1)
- IECEx ia
- Approval: II 1 G Ex IIC T4 G

## Product description

Weighing only 1.65 kg and with an output of 530 lumens, the **ATEX 9415 handheld floodlight** illuminates up to 392 metres. It is equipped with a swivel head with four latest generation high intensity LEDs. It is the most powerful spotlight on the market, combining power, lightness and robustness.

This **portable ATEX zone 0 headlamp** has 3 lighting modes (high-low-flash) to adapt to the user's needs. A battery life indicator is fitted to the switch so that the battery status can be checked at all times. A carrying strap facilitates the handling and transport of the projector.

### ▶ Undeniable visual comfort

Four LEDs, powered by the latest generation of Ni-MH batteries, offer unparalleled visual comfort with an optimal range. With its 120° swivel head, it can be used in a horizontal or vertical position. Battery life is up to 11 hours, ensuring optimum safety throughout the work.

### ▶ ATEX Zone 0 certified

Made of unbreakable ABS material, the **ATEX Zone 0 portable floodlight** is guaranteed to be static free. It is equipped with a polycarbonate lens that provides ideal impact protection. It is therefore particularly suitable for use in hazardous areas or rescue situations.

### ▶ Advantages of the 9415Z0 LED torch

- Rechargeable hand-held headlamp that combines power, lightness safety and robustness.
- Very powerful LED light (up to 392 metres) with a long autonomy (up to 11 hours).
- 3 operating modes available: High, low or flashing, head 120° swivel head in horizontal or vertical position.
- Suitable for work in explosive and hazardous areas, certified ATEX zone 0 (category 1) and IECEx ia.
- Its low weight (1.65 kg) and the included strap allow a long and comfortable use with great comfort.
- A battery life indicator on the switch shows the battery status at all times.

**Complete kit:** 1 Charging base + 1 Power supply + 1 NiMH battery + 1 Carrying strap
