NCAS1851	Vfumé protective visor
NCAS3015	Earmuffs with bayonet attachment

Product description

The **PLASMA AQ** is a safety helmet that protects the head, an area particularly vulnerable to impacts. Compact, innovative and lightweight, this Personal Protective Equipment (PPE) provides effective and safe protection.

Designed with high quality materials for work at height, it has a 10-year life span.

Adaptable and customizable thanks to its many options, the helmet can be used in many sectors by meeting each user's needs.

It can be perfectly suited to several different industries, such as AWP, roofing, metal constructions, building, etc.

The **PLASMA AQ** is EN397 certified and has a shock absorption capacity of up to 5kN. The helmet also has a flame resistance as well as a chinstrap resistance up to 25daN.

▶ A maximum ventilation

The **PLASMA AQ** helmet is equipped with a ventilation system that provides constant and maximum ventilation through the ventilation openings.

The ventilation openings and the mesh of the internal shell guarantee effective breathability, ensuring optimum comfort for the user.

▶ A wide range of accessories

The **PLASMA AQ** helmet is truly a multi-functional helmet. Its multiple accessories make it a helmet suitable for different applications.

Protective visors, protective shields, ear muffs and adapters make it possible to adapt the helmet to different situations.

▶ A quick & precise size regulation

The size regulation mechanism is positioned at the rear of the helmet, providing a quick and precise adjustment.

▶ A breathable fabric

A high tech fabric which offers maximum comfort and dries very quickly. By encouraging the expansion and dispersion of moisture to the outside, it leaves a pleasant feeling of freshness.

▶ A high hygiene standard

The Sanitized® treatment is an antibacterial treatment that acts as an internal deodorant counteracting the development of unpleasant odors.

Thanks to its hygienic function, it effectively prevents bacterial proliferation by increasing freshness and comfort of the fabric in contact with skin.
